CONCEVOIR POUR TOUTES LES TAILLES

L'objectif des cartes anthropométrie est de proposer des silhouettes d'hommes et de femmes des différents percentiles (personnes petites, grandes, etc.).

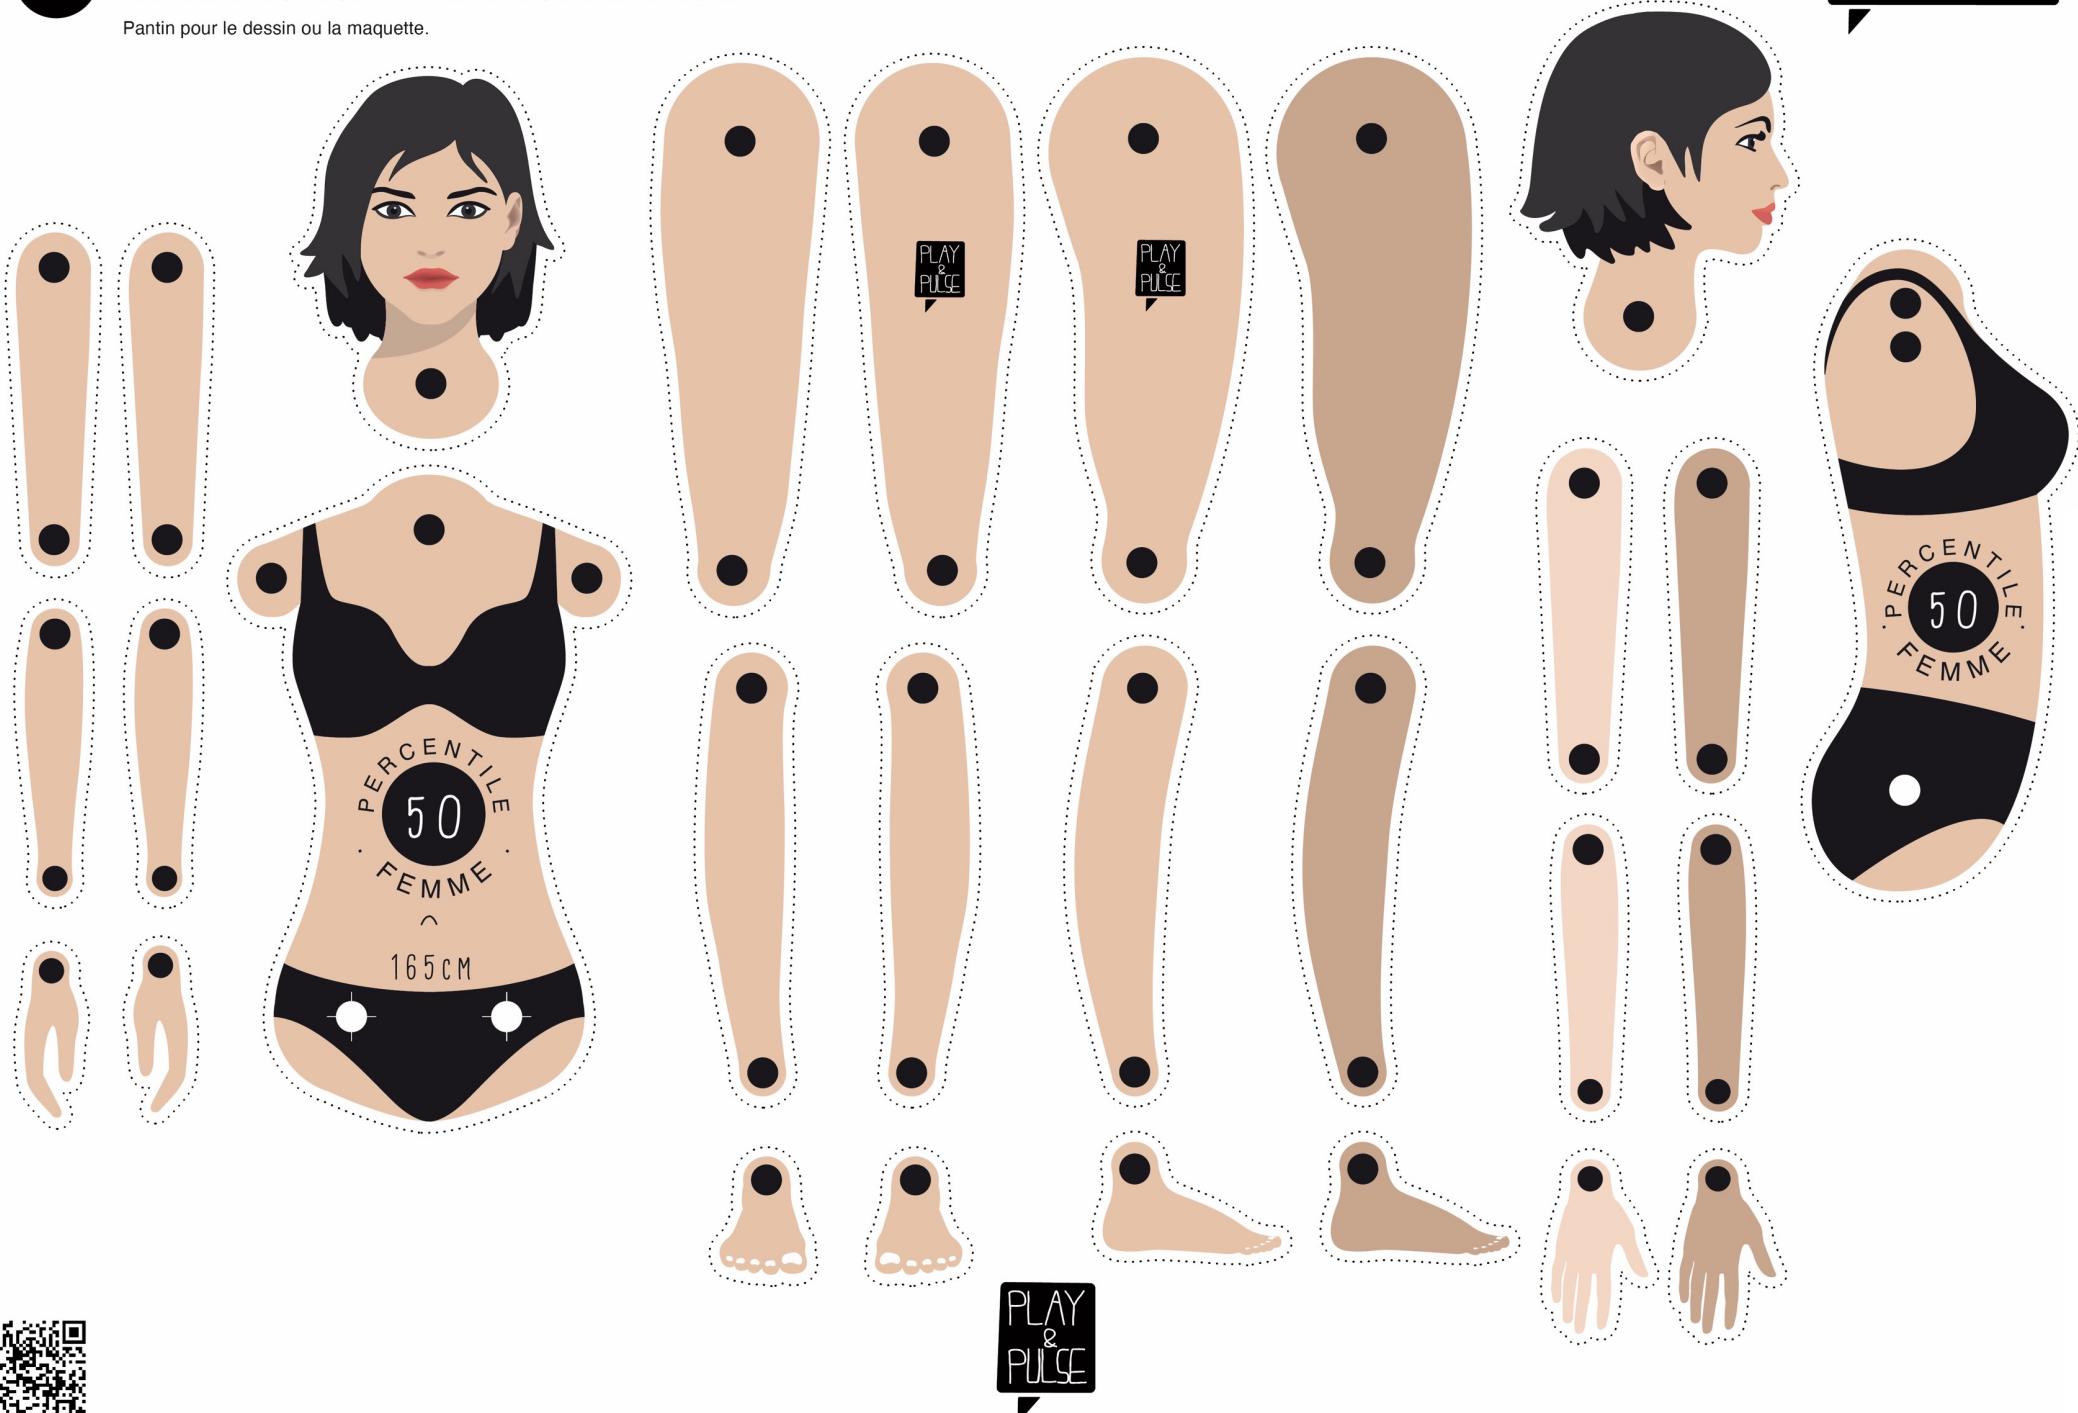

Ces silhouettes utilisables notamment lors des phases de recherche créative et d'évaluation doivent permettre d'évaluer, tester l'adéquation des dessins, des sketchs, des maquettes aux dimensions anthropométriques des hommes et des femmes, petits ou grands.

Les dessins, sketchs ou maquettes et les silhouettes proposées doivent être utilisées avec des échelles similaires.

Pantin pour le dessin ou la maquette.
